## ELF Bespoke Kitchens

We offer a bespoke service for fitted kitchens that is renowned around the world. Whether you have a tight corner, or a spacious mansion, we can design and create a kitchen that will reflect both the style of the house, and your taste (or that of the occupants!)

Some of our kitchens have opening doors and drawers while others have fixed units. We offer a range of more than thirty different units, and from chic stainless steel to cosy country cottage, our kitchens offer an almost infinite choice of finish. We have nearly thirty worktops to choose from, including a choice of hardwoods, laminates, steel, and glass. There are numerous sinks, hobs, and ovens and a range of appliances to suit every application.

A large kitchen with opening units in cherry with matching carved brackets . A feature fireplace houses an Aga, and Decrastone worktops are used throughout.

Not all ELF kitchens are destined for houses. The kitchen on the left was built for a houseboat and included a breakfast bar along one side. The one on the right was for a caravan, and has curved wall units typical of contemporary caravans, and a compact built-in fridge. Both these kitchens have fixed units.

Here the use of opening drawer-line units, and special curved steel handles, together with the wall units with figured sliding glass doors, all combine to create an iconic style, in this case, the 1950's.

Above left a large spacious classic kitchen, in pure white with highlights in stainless steel. On the right a kitchen with clean lines in hand-waxed lightwood. With a column oven, narrow wine racks flank the pan drawers below the hob.

A kitchen in lightwood with some doors picked out in deep blue. Clean lines and calm colours make this a very chic kitchen.

Guide price for fixed door kitchens £80 - £200, for opening doors, £150 - £750.

If you would like ELF to design a kitchen for your dollhouse, please send an email via the link at the top of the website.
